Introduction...

Best Pet Products in the world!

Pearson Industries can manufacture twisted cordage and pet toys to most specifications in a variety of natural and synthetic fibers.

Since 1940 we have taken pride in our ability to manufacture quality products at competitive prices.

In 1988 we used our cordage manufacturing experience to successfully enter the Pet Product market and today we have over 100 successful pet toys to offer the selective pet owner.

Regardless of the product, our solid reputation was built on hard work and our willingness to stand behind every product we sell. Please give us a chance to meet your pet product needs.
